OVERVIEW

Driven Computer Science and Engineering student with interests in full-stack development, cybersecurity, and low-level system programming. Experienced in developing scalable web applications, backend architectures, and modern user interfaces. Passionate about solving complex engineering challenges through efficient, maintainable, and performance-oriented solutions.

EDUCATION

College of Engineering Chengannur	Alappuzha, Kerala
B.Tech in Computer Science and Engineering CGPA: 7.32	2023 – 2027
St. Thomas Higher Secondary School	Erumeli, Kerala
Class XII Percentage: 95.08%	2021 – 2023
St. Antony's High School	Mundakayam East, Kerala
Class X Percentage: 100%	2020 – 2021

SKILLS

Programming Languages: Python, Java, C
Web Technologies: HTML, CSS
Frameworks/Libraries: React.js, Node.js, React Native
Database: MySQL
Core Concepts: DSA, DBMS, Operating Systems, OOP
Tools: Git, GitHub, VS Code

PROJECTS

SPARE

SPARE github

Spearheaded the development of a location-based mobile platform designed to streamline vehicle maintenance. Architected a real-time, role-based ecosystem connecting riders, mechanics, and retailers using a NoSQL Firebase backend. Engineered core features including a live-inventory search engine, a custom Haversine algorithm for GPS-based emergency mechanic routing, and an offline SOS safety module, delivering a highly scalable and fault-tolerant application.

EXPERIENCE AND CERTIFICATES

VEEJAY CONSTRUCTION, Mundakayam Web Developer	Freelance
Developed and maintained a responsive company website for a local business, focusing on modern UI design, performance optimization, and seamless user experience.	

CERTIFICATES

Certificates
